

## Course Exam Proctoring Options

Effective October 21, 2010, the Fayetteville Site will no longer proctor course exams. The list below provides options for electronic options and proctoring/testing sites in the area. You can also visit, <http://www.troy.edu/ecampus/testing/options.htm> for information on other options for testing sites and centers.

### 1. Proctor U

ProctorU is an online proctoring service which allows students to be proctored via a webcam in their own homes on their personal computers. To use ProctorU, you will need high-speed internet connection, webcam with microphone, and Windows XP, Windows Vista, or Mac OS X (or higher). For more information, please visit the eCampus [ProctorU Information](http://www.troy.edu/ecampus/testing/proctoru.htm), at [www.troy.edu/ecampus/testing/proctoru.htm](http://www.troy.edu/ecampus/testing/proctoru.htm) or the ProctorU, [www.proctoru.com/troy](http://www.proctoru.com/troy) website.

### 2. Remote Proctor

The Secureexam Remote Proctor system eliminates the need for students to travel to a site or testing centers or arrange for an approved proctor. Secureexam is a webcam, biometric scanner, and microphone, all bundled into one compact unit. The unit ensures that every test is conducted in a safe and isolated environment, while also safeguarding the security of every test taker's identity. For pricing and purchasing information of the Remote Proctor device, contact the MBS Bookstore, <http://bookstore.mbsdirect.net/troy.htm>.
